CAPTURING THE AUTHENTIC BEAUTY OF THE WORLD

The "Capturing the authentic beauty of the world" creative concept derives from our Brand's main purpose: enabling our guests to discover the truest and most beautiful places our world can offer.

Our partnership with one of the most amazing photographers of the world, Steve McCurry, is a supporting evidence to this intent. Steve McCurry needs no introduction. He is one of the greatest living photographers today.

A large expedition ship, the Silver Cloud, is shown from a high-angle perspective, sailing on a dark blue body of water. The ship has a white upper hull with multiple decks and a dark lower hull. It is equipped with various antennas and satellite domes on its upper decks. In the background, a massive, snow-covered mountain or ice formation rises from the water's edge, with some dark rock visible. The sky is overcast and grey.
